After an unprecedented super charged performance, the team has made history with an incredible result. Nuclear winds but less impressive waves set the backdrop for this amazing spectacle of the most radical moves possible.

In the Men's division, Dany Bruch advanced through the double elimination clocking up impressive wave scores in the tricky conditions. He eventually went down to an on form Ricardo Campello who was boosting massive doubles and tweaked pushies off the small Pozo ramps.

The women had a chance to shake up the ranking from the previous day but nobody managed to get their scores past the solid Severne team. Nicknamed the "Queen of Pozo", 12 times Pozo Champion Daida Ruano Moreno claims victory ahead of her sister Iballa; no one comes close in terms of performance compared to the twins

at their home spot. Karin Jaggi follows in 3rd place and another Pozo local, Nayra Alonso was disappointed not to finish on the podium in 4th place.
